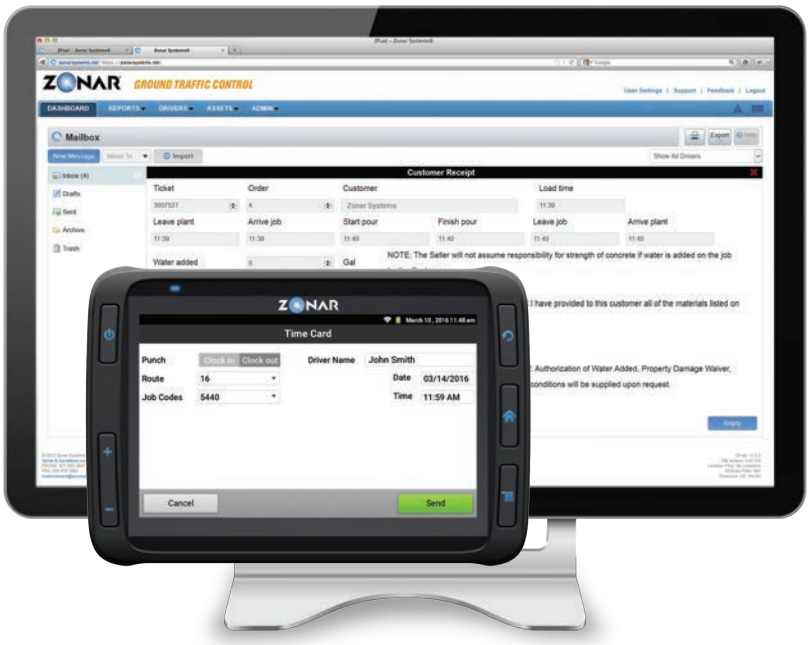
# ZForms™



**AUTOMATE**
eliminate paper forms

**CUSTOMIZE**
message content and displays

**TRACK**
compliance and performance

**SIMPLIFY**
auto-populate message fields

## Streamlining fleet communications

ZForms allows companies in the dispatcher-to-driver environment to replace paper forms, share route dispatch assignments, gain efficiency and improve communication. Together with Zonar's Ground Traffic Control® and 2020® mobile tablet, the new ZForms feature makes mobile messaging easier than ever before.

## A solution for your industry

ZForms comes well-equipped with a library of message templates to choose from, designed to meet the needs of customers across a variety of industries such as pupil transportation, commercial trucking, transit, retail, municipality, construction and more.

## Key features:

- Easy-to-use, on-screen displays for drivers and fleet dispatch operators.
- Electronic signature capture and recording.
- Saved message responses to assist with tracking compliance and performance.
- Message import and export ability to assist with managing driver replies.
- Driver notification alerts when new messages are received.
- Access to a library of commonly used message templates and forms.
- Text-to-speech with message auto-play for minimal driver distraction.
- Easy-to-navigate message folders including inbox, sent, draft, archive and deleted items.
- Flexible message display formats.
- Auto-populate message fields to display asset numbers, odometer, date, time and more.
- Share addresses as a hyperlink to navigation systems.
- 24/7/365 technical support from Zonar Customer Care.

## Talk to us about customization options

Zonar provides an option to work directly with your company to develop a customized ZForms solution. Whether it's full custom form development or minor changes to existing templates—Zonar has you covered. Contact us to find the option right for you.
