

GROUND TRAFFIC CONTROL

FieldView™

Android™ mobile app for Ground Traffic Control® users

KNOW

your fleet's
locations and
actions

MONITOR

your fleet
anytime and
anywhere

MANAGE

a single asset or
your entire fleet

NAVIGATE

to your assets

Ground Traffic Control FieldView™ mobile app makes it simple to instantly locate, view and navigate resources in real-time, no matter where you are. Equip field managers and jobsite supervisors with a convenient way to know if vehicles are in motion, idling, or powered off. With only a few touches, [FieldView](#) reveals the information needed to efficiently locate your assets. Take the guesswork out of remote fleet management—save time and money while keeping your operations on course.

Key features

- Find and view assets
 - Search and view specific assets

- Sort by distance, status or asset
- Zoom in and out on map locations
- View current operational status for assets such as in motion, idling or power off
- Navigate to assets
 - Quickly navigate to assets with map views
 - Receive notifications as assets move in the field
 - Set a waypoint or meet point with directions.
- Search results are based on user permissions.
- Downloadable to a standard Android device from the Google Play store.

Ground Traffic Control

Ground Traffic Control® provides the most accessible, real-time picture of fleet operations. With an unlimited number of users and 24/7 access, this web-based software gives back office management unmatched visibility, ease and control of your organization. We make it easy to coordinate your workforce with actionable data organized in one accessible location. All this power for tracking, reporting, and easy exporting of fleet data is available for Ground Traffic Control users. With Zonar, you are never driving alone.
