Z Pass improves the safety and efficiency of pupil transportation with a patented RFID data collection process that provides instant ridership information to decision makers. With Z Pass, schools know the time, date and location of each entry and exit from the bus for real-time child search, child check and Medicaid reporting.

### Ridership Tracking

Each student is issued a unique Z Pass RFID card. Upon entering or exiting the bus, the time, date and location is captured, securely transmitted and accessible via Zonar's Ground Traffic Control and the Z Pass+ parent portal.
